

Vivid Points Program – Super Deals

1. Prerequisites

- Every existing private customer of Vivid Money who holds an account with Vivid Money ("**Eligible Customer**") is entitled to participate in the Vivid Points Program – Super Deals.
- Each Eligible Customer receives reward points from Vivid Money for the purchase of goods or the use of services ("Vivid Points") from partner companies ("Partners"). By purchase, it means any successful card transaction or direct debit, which wasn't reversed.
- The Vivid Points are credited to the Reward Pocket of the customer's bank account immediately after authorization of the Transaction, if not specified differently in the Partner conditions.
- Each Vivid Point is worth EUR 1.00, i.e. the Eligible Customer receives up to 50 Vivid Points (= equivalent of EUR 50.00).
- The Vivid Points can only be granted if the customer buys directly in the shop of the Partner and not via third party shops. Information on the Partners as well as the type, scope and conditions of the respective Vivid Points granted for Transactions with the Partners can be found in the Vivid Money App. The Partners of the Vivid Points Program – Super Deals and the type, scope and conditions of the respective Vivid Points granted may change at any time.
- Each Eligible Customer receives **an eight-weeks access period** to Super Deals and up to 50 Vivid Points for this period as a bonus from Vivid Money for **each** successful referral of a new customer, who is not an Eligible Customer at this point of time ("**New Customer**"). A referral is only deemed successful if the New Customer follows the referral link after having pushed the Super Deals button in the Rewards Tab, which the Eligible Customer has sent to him and the New Customer enters his email address and applies for the opening of a bank account.
- Once the New Customer opens a bank account with Vivid Money by using a referral link, the New Customer also receives **a four-weeks access period** to Super Deals and up to 50 Vivid Points for this period, starting from the date of the bank account opening. The New Customer becomes an Eligible Customer.
- In case, the Eligible Customer invites more than one New Customer, the limit of up to 50 Vivid Points remains. For clarification: This limit does not increase in case the Eligible Customer invites more than one New Customer.
- In addition, the access period (as mentioned above) is limited to twenty-four weeks continuously, in case the Eligible Customer has been referred and has successfully referred three or more New Customers. Furthermore, the access period cannot be splitted, i.e. the Eligible Customer receives a

four-weeks access period as being referred himself and an eight-weeks access period for each New Customers.

- When purchasing products from a Partner or using the Services of a Partner, a contractual relationship exists exclusively between the Partner and the customer. Vivid Money is not responsible for the performance and behavior of the Partner or the products or services purchased via the Partner.

2. Linking of Vivid Points to Stocks and Redemption of Vivid Points

- The Vivid Points are credited to the Reward Pocket of the customer's bank account immediately after authorization of the Transaction, if not specified differently in the Partner conditions.
- As soon as the Vivid Points are credited to the Reward Pocket in the customer's Bank Account, the customer shall link the Vivid Points to one of the stocks listed in the Reward Pocket ("**Stocks**"). For clarification purposes, the Customer does not receive ETFs and/or stocks directly.

- As soon as the customer has linked the Vivid Points to a certain Stock, the amount of Vivid Points depends on the changes in Stock prices. For example, if the customer has linked the Vivid Points to the Apple Stock and the Stock price of Apple increases by 2.0%, the Vivid Points will also increase by 2.0%, e.g. 2 Vivid Points would then increase to 2.04 Vivid Points.
- In case of a decrease of the Stock price of the Stock linked to the Vivid Points, the amount of Vivid Points will also decrease, but not below the total initial amount of Vivid Points received by the customer. However, the Vivid Points will only start again to be higher than the initial amount of Vivid Points when the Stock price is (again) higher than it was when the Vivid Points were originally linked to the Stock price.
- The customer can decide to link the Vivid Points to a different Stock at any time. In such cases only Vivid Points that have been credited to the customer's Vivid Reward Pocket after this decision will be linked to the different Stock. Vivid Points that had been linked to the previous Stock remain linked to that previous Stock.
- The current balance of the amount of Vivid Points under consideration of the development of the prices of the Stocks linked to the Vivid Points can be seen by the customer in the Rewards Pocket.
- The customer can redeem Vivid Points at any time after he has linked the Vivid Points with a certain Stock. The customer can only redeem all Vivid Points and not parts of the Vivid Points.
- In case that the customer redeems the Vivid Points, the customer will receive a payment in Euro equaling the value of the Vivid Points into his Main Pocket. For example, if the customer has 2.04 Vivid Points in the customer's Reward Pocket, the customer will receive EUR 2.04 in his Main Pocket.
